

CATALYTIC CAPITAL REPOSITORY

Summary of data request for catalytic capital providers

This document provides a summary of information the Catalytic Capital Repository (CCR) requests from catalytic capital providers on their organizational profiles and specific offerings.

Providers are asked to submit information at two levels: (1) one provider profile for the organization, and (2) an optional window form for each relevant offering. The tables below reflect the current CCR provider and window submission fields. The structure is designed to make catalytic capital easier to find, compare, and access while keeping the submission process manageable for contributing institutions.

1. Provider profile

This information should take no more than 5 minutes to complete

Field	Standard responses or format
Name of organization	Open text

Main organization email contact	Open text
Main organization phone contact	Open text
Other information (optional)	Open text

Validation details: Providers are also asked to provide the submitter's name and email address for internal record keeping, and to complete checkbox confirmations on authority to submit information to be displayed publicly, absence of competitively sensitive information, and acknowledgement that CCR may follow up with questions.

*The Green Guarantee Group (GGG) is a data partner of the Catalytic Capital Repository. Organizations that offer guarantees will be directed to submit information on their guarantee offerings to the GGG Guarantee Directory to be included on CCR.

Providers may also share information on specific windows or offerings through the window submission form, which includes 13 core fields and 16 optional fields for additional information where relevant.

2. Window information: core fields
